

# Meningitis Vaccine

**A Note from the Clinic for Parents of Seniors:**

**Your child will need to have a current meningitis vaccine for college entrance in the fall of 2016. Colleges require the vaccine to be given within the 5 years prior to starting college. Please check your child's shot records or with your medical care provider and make sure that your son or daughter has had at least 1 meningitis vaccine dated 2012 or later. If their last vaccine was before 2012, you will want to get this vaccine ASAP. The meningitis vaccine is also known as Menactra, Menveo, or MCV4.**

**Please provide documentation to the clinic ASAP so that our records will be up to date. You may use the request form on the reverse side of this letter if needed.**

**If you have previously responded to this request, then you may disregard this letter.**
